

Antitrust Law eNewsletter

Fall 2014

This newsletter is published by the four committees of the Antitrust Law Section: The Class Action Committee; the Vertical Restraints Committee; the Horizontal Restraints Committee; and the Mergers Committee. The Antitrust Law Section formed the committees to expand the activities of the Section and to offer additional opportunities for Section members to participate in the Section's activities. All members of the Antitrust Law Section are invited to join the committees.

The newsletter will be published several times a year. Each edition will include brief summaries of recent decisions issued by New York courts and regulatory agencies that are relevant to antitrust law. Each newsletter will also include one or more longer thought pieces on current antitrust law issues. Comments on the newsletter are welcome and should be submitted to the [committee Chairs](#).
