

New York's Housing Stability and Tenant Protection Act of 2019:

What Lawyers Must Know

By Gerald Lebovits, John S. Lansden,
and Damon P. Howard

On June 14, 2019, in response to a housing shortage that has spanned more than half a century, New York's Housing Stability and Tenant Protection Act of 2019 (HSTPA) became law. HSTPA will bring about broad and sweeping changes to the laws governing many forms of housing across New York. HSTPA's proponents argue that it is, among many other things, a long-overdue strengthening of tenant protections following years of landlord abuse. HSTPA's detractors argue that it will, among many other things, have a chilling effect on real-estate development, curtail residential property owners' incentives to improve their buildings, impoverish small landlords, and exacerbate New York's housing shortage.

We take no position on HSTPA's economic, moral, or political attributes or virtues, but instead discuss

HSTPA's substantive and procedural provisions and how the new legislation will affect landlord-tenant litigation statewide.

Here, we provide a chart comparing and summarizing the old law and the current law. Future articles will analyze HSTPA and its impact on landlord-tenant litigation, explain the practical effects it might have on landlords and tenants, note interpretations from the courts and attorneys for both landlords and tenants in their attempt to navigate this new sea of law, and anticipate what landlords and tenants will do in light of HSTPA.

Notice shall include the initial approved improvement increase and the total amount to be removed. • MCIs are work essential for preservation, energy efficiency, functionality, or infrastructure of the entire building. • Amount of MCI must be reduced by the amount of any government grant given to help pay for improvements and by any insurance payments that compensate for improvement costs. • Collection of MCI starts on the first day of the month at least 60 days after notice to tenant of the increase. • MCIs not permitted in buildings with 35% or fewer regulated units. • Application requires additional and more detailed documentation; DHCR to audit 25% of MCIs. • No MCI if there are outstanding hazardous or immediately hazardous violations. • Eliminates retroactive portion of MCI. • Independent contractors must perform work. • Effective 6/14/19.

Failure to maintain records permits DHCR or court to consider evidence of overcharge beyond 6 years. • Although DHCR and the courts shared concurrent jurisdiction under the prior law, the new law gives the tenant the choice of forum.
<p>Preferential Rents</p> <p>NYC Admin. Code § 26-511(14)</p>	<p>Landlords could charge a “preferential” rent that was less than the legal rent; landlord could rescind preferential rent during renewal unless lease provided otherwise.</p>	<ul style="list-style-type: none"> • Owners may charge only the preferential rent, subject to applicable RGB rates and any other applicable rent increase; when the tenant vacates, the preferential rent can be rescinded if warranty of habitability issues did not cause the vacancy. • Subject to limited exception for buildings subject to a regulatory agreement (i.e., federal housing projects).
