

50% off onboarding for NYSBA members

Smokeball legal case management software includes robust email and document management, automatic time tracking and dozens of features to increase your productivity. Plus, Smokeball integrates with Zoom, Microsoft Word and Outlook, LawPay, and more.

Let us walk you through a personalized demo of Smokeball for your specific firm and jurisdiction. Read on to see why Smokeball is the #1 legal case management software.

EASY LEGAL DOCUMENT GENERATION

Over 20,000 automated court approved forms are included with Smokeball — and you can easily create your own automated templates. Enter key matter information once and every document will be automatically filled and always accurate.

AUTOMATICALLY CAPTURE YOUR TIME AND ACTIVITY

Revolutionize recording your time to understand your profitability per matter, whether time recorded, fixed fee, or on contingency. Track every activity that completes your timesheet daily. Smokeball shows you value by matter, practice area, and even employee.

CUSTOMIZED FOR YOUR AREA OF LAW

Smokeball is built for your practice area so you can truly manage your files without reams of paper. Highly tailored matter types for Family Law, Personal Injury, Real Estate and more are all included. Smokeball will transform your firm and business like no law firm software out there.

SEAMLESS OUTLOOK EMAIL MANAGEMENT

Every email sent and received by everyone at your firm relating to a matter is automatically managed in Smokeball. Our industry leading, seamless integration with Microsoft Outlook gives you an unprecedented level of collaboration and enables you to provide a much higher level of client service.

MANAGE CALENDARS, TASKS AND WORKFLOWS IN ONE PLACE

Staying on top of your files has never been easier. Never forget client meetings, miss court deadlines or arrive late to the office again. Share calendars, assign tasks and build workflow processes to ensure your team never drops the ball.

ACCESS YOUR FILES AND WORK WITHOUT AN INTERNET CONNECTION

Smokeball's hybrid configuration of local installation plus cloud-based storage gives you bank-grade secure access to your data at all times. Whether you're on the go or stuck in a courtroom with a bad internet connection, you will always have the matter, case details and documents you need.

“I wish we would have been using Smokeball many, many years ago. I think it's not only great to have an option to work outside of your office and have everything at hand easily at hand, I also think it's important that with e-filing, with the court system, everyone's moving to becoming paperless... the program is ahead of the game.”
