LIST OF STIPULATIONS	The following change in italics has been made to Stipulation #9. 9. The door exhibit is a rendering made by fire investigator Kelly Severide on August 2, 2023. On July 30, 2023 and before Severide was able to take a picture, the City of Bliss demolished the wall where the door was located because the wall posed a safety hazard. The parties agree that the rendering is a fair depiction of how the door appeared on July 29, 2023, <b><i>with the exception that the door latch was unlatched when first observed by Severide.</i></b> The parties further agree that the hole in the glass is large enough for an adult hand to reach through.	55/55
