Blind Justice, Seeing Machines: AI, Prediction, and the Future of the Law. An Italian American Dialogue.

L'Intelligenza Artificiale nell'Attività Giudiziaria: IA, Predizione e il Futuro del Diritto — Un Dialogo USA Italia

Blind Justice, Seeing Machines brings together American and Italian jurists, legal scholars, attorneys for a transatlantic dialogue on the integration of AI into legal systems and adjudicatory processes — challenging foundational concepts of due process, judicial independence, and the irreducibly human dimension of legal judgment.
